

**We improve
the efficiency of
your material flow**

We don't start with products. We start with your operations.

01 Understand your operations

We start with understanding your processes, constraints and targets.

02 Design the best-fit solution

Our teams combine industry knowledge, product expertise and application testing.

03 Support implementation

We stay involved from the first concept through rollout and ongoing development.

Our customers seek solutions which improve their supply chain efficiency

The benefits we bring

FMCG & DIY

Faster replenishment

Reduce manual handling and speed up movement from transport to the shop floor

INDUSTRIAL MANUFACTURING

Smoother material flow

Optimise material flow, decrease WIP, working safely with Lean forklift free production

PARCEL & E-COMMERCE

Higher throughput

Shorten throughput times while improving vehicle fill and load visibility

A global partner close to you

90+ years of innovation at your service

1960's

SAFETY BELTS BUSINESS

Before they were even compulsory in Finland the company decided to collaborate with Klippan in Sweden and manufacture safety belts understanding this would be a trend which would never go away.

2006

LEAN DOLLY & ADAPTOR PALLET

Lean Adaptor Pallet and Dolly solution is developed for the automotive industry to support Lean manufacturing principles and forklift-free intralogistics.

1985

COMPACTAINER® IS BORN

First nesting roll container, developed with ICA — a revolution in the world of retail at a time when all roll cages are rigid or demountable.

2018

ACQUISITION OF A&A IN GERMANY

With this acquisition K.Hartwall become a one-stop-shop who can deliver Manual Handling Equipment, electric tugger trains and autonomous mobile robots to its customers

1990

TDP CONCEPT

Tray-Dolly-Pallet system developed with the beverage industry as the one-touch-merchandising solution to bring huge saving in manual handling costs.

2022

GROWTH COMPANY OF THE YEAR

Internationalisation Award received from the President of the Republic of Finland

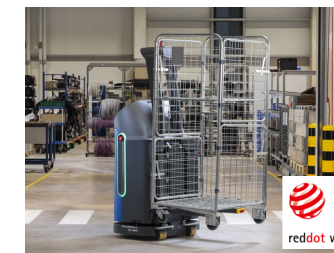

1997

IN-HOUSE ELECTRO ZINC-PLATING

We built and inaugurated one of the most modern in-house electro zinc plating facilities in Europe.

2025

A-MATE® LITE

Our most compact free-lift pallet AGV with omnidirectional drive receives the Design Red Dot Award

Sustainability is part of our DNA, not a trend

OUR PRODUCTS

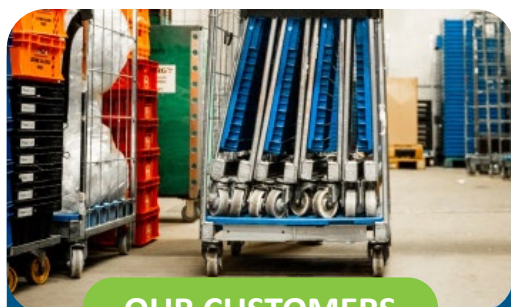

We design and develop logistics solutions which **optimize our customer operations** and support the planet by being reusable, space-efficient, and lightweight-yet strong.

OUR OPERATIONS & VALUE CHAIN

Our aim is to consistently **reduce the impact of our operations** on the environment.

Given that our own operations (Scope 1&2) represent only a fraction of our carbon footprint, we will next address emissions arising elsewhere in our value chain (Scope 3) in collaboration with our partners.

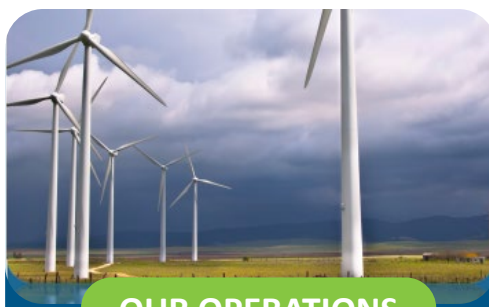

We will publish our first VSME (Voluntary Sustainability Reporting Standard for SME's) report in 2027.

OUR CUSTOMERS

Sustainable solutions

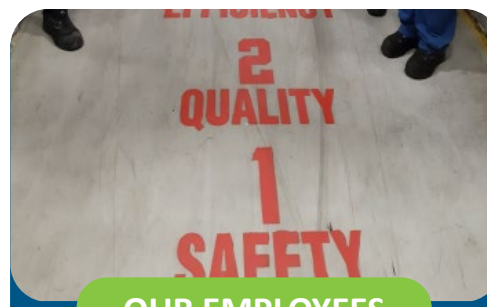

Reusable equipment cuts handling and packaging waste. Foldia® saves up to 75% space when returned or stored empty.

OUR OPERATIONS

Zero-emission electricity

Since 2023, our sites in Finland and Germany have used electricity generated from clean sources.

OUR EMPLOYEES

Safety first

Regular safety walks are reducing accident frequency in our Finnish operations. The target for 2026 is 9 accidents per million work hours.

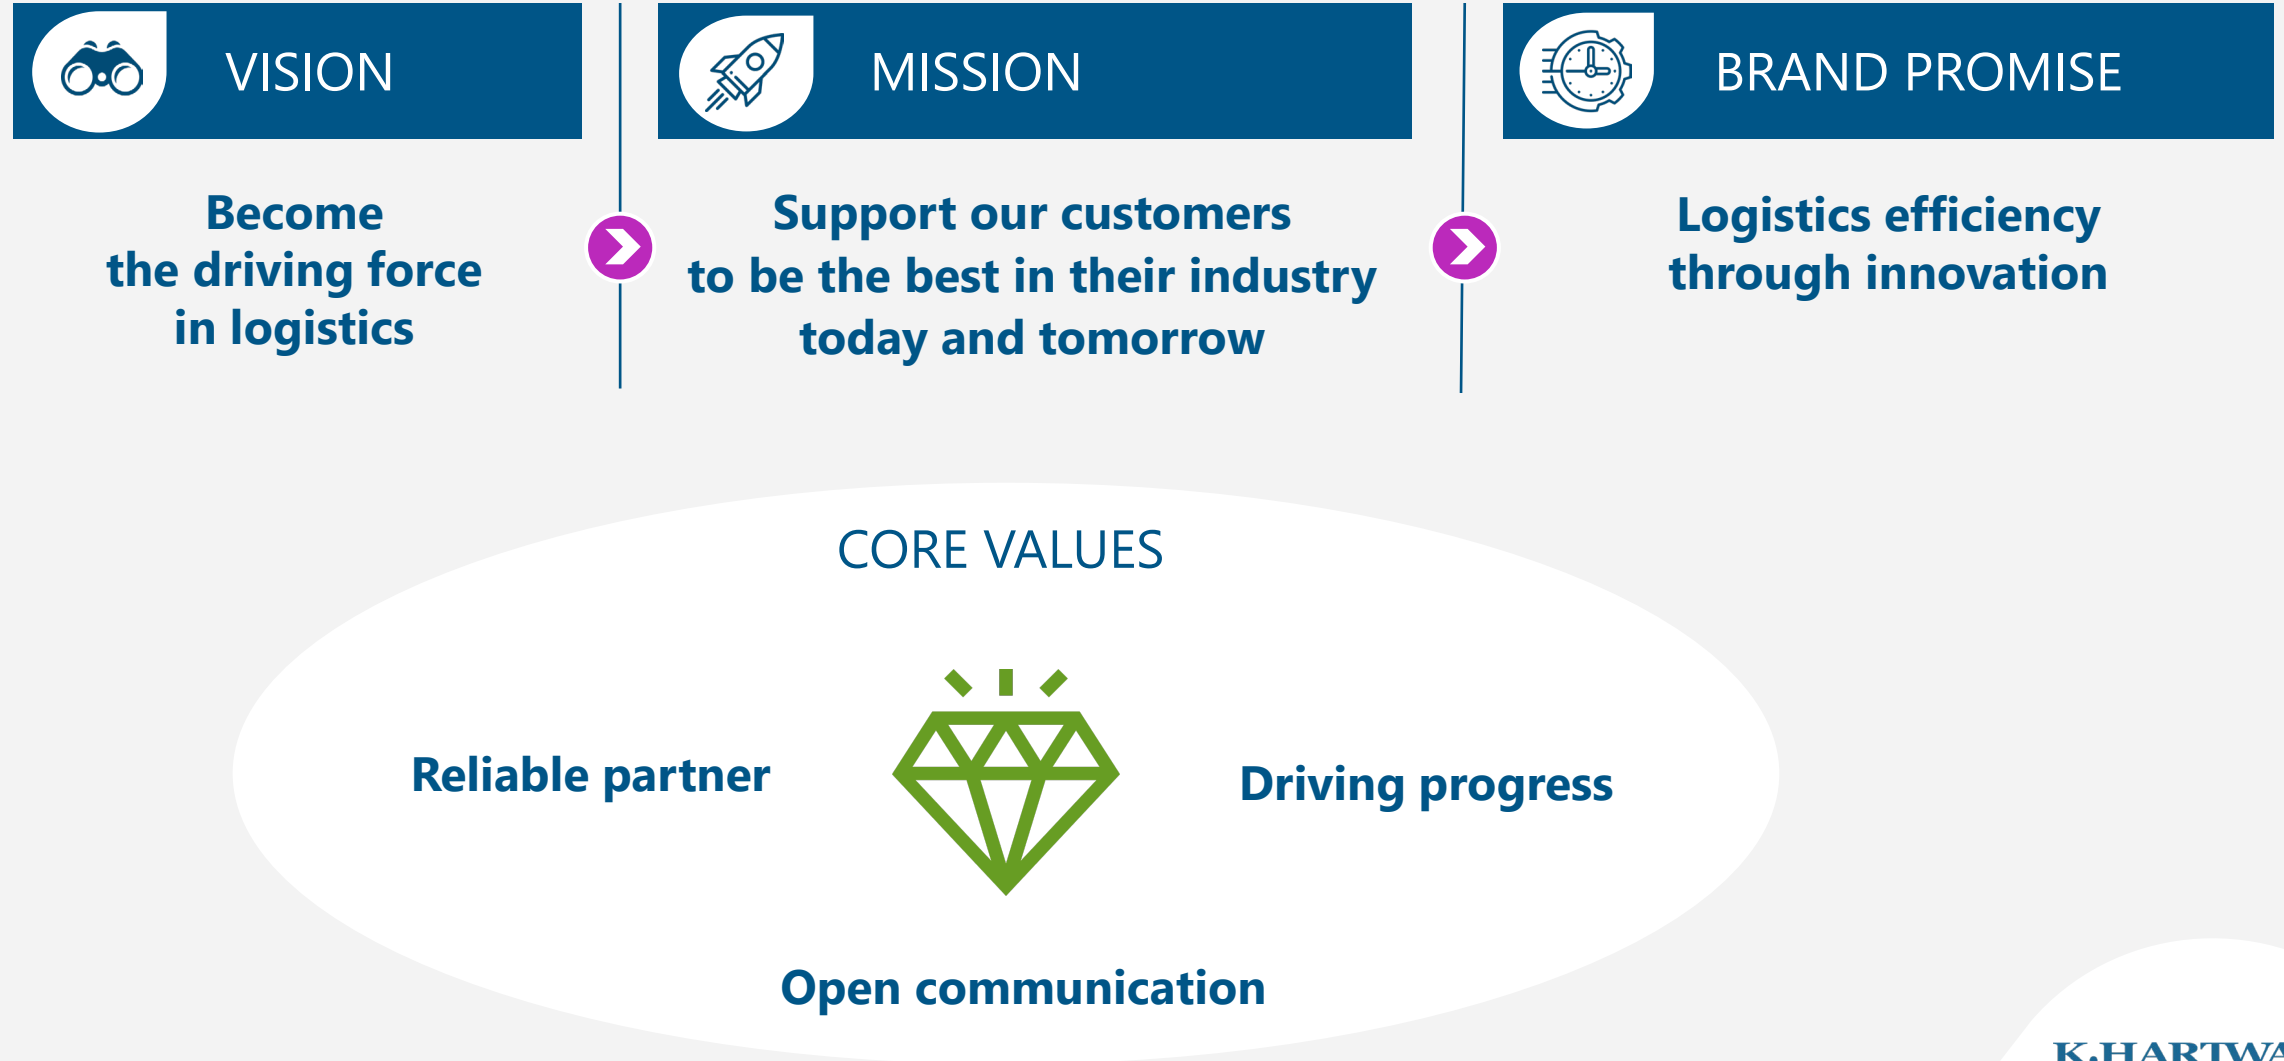

OUR COMMUNITY

JST program

We sponsor Junior Sport Teams in countries where we deliver our solutions to support sport activities for children in difficult situations.

Our purpose and core values

If you work with us you will work with

- 01** A reliable partner who understands your operation
- 02** A global expert in both logistics and intralogistics
- 03** An innovation house who constantly develops new solutions
- 04** A company who provides high quality and durable solutions
- 05** A supplier with worldwide delivery capabilities and a broad portfolio

Make the next Smart Move in logistics
